

Highways Sub-group November 2023

- Clearly the season of damaged road surfaces has arrived. Luckily, we had the Dragon Patcher from HCC out in the Parish last week. We have registered a number of issues over the last couple of weeks. Please report any problems you become aware of:

[Report a pothole | Hampshire County Council \(hants.gov.uk\)](https://www.hants.gov.uk/roads/roadworks/roadworks-report-a-pothole)

[Report a flooding or drainage problem | Hampshire County Council \(hants.gov.uk\)](https://www.hants.gov.uk/roads/roadworks/roadworks-report-a-flooding-or-drainage-problem)

If possible drop a message to Highways Group too, so we can record reported incidents. I know Hampshire Highways will only get busier.

- HCC have been working on the protection rail in Rodlease Lane this week – hopefully the repair will last longer than before.
- A number of road signs that had become obscured by vegetation have been revealed to the world again in the last couple of weeks. Some may not have been visible for years. Please flag up any problems you come across with this.
- Highways Group have taken up some of the issues raised at October's meeting by a local resident:

The SID belonging to the Speedwatch group can be made available in the BPC area if we have a crew willing to staff it.

Portmore 5 ways has been flagged up with HCC as a junction of concern. We have been promised some investigation and a response. We are holding our breath.
